Ringie Dingie | 18° option

Double points put a contemporary spin on this long-time favorite and eliminate the need for an appliqued circle in the center. This allows rings to interlock! These Dresdens are built on a foundation so background fabrics don't shadow through and, more importantly, Dresdens turn out perfectly flat. Learn Susan's tips for speedily turning wedge points with the Prairie Pointer Tool. At home you may finish the quilt by quilting the background then ditch stitching Dresdens onto the quilted quilt! Design possibilities are endless!
Finished quilt is 48"x 71".
